Remarks: The Morning Congregations vary, and are considerably larger on the alternate Sundays when there is a sermon (on March 30th there was no sermon). I have therefore in the second column given the averages for the number of attendants on the alternate Sundays respectively. The Sunday scholars properly belong to the Wesleyan Sunday School, though the parents of many of them are members of the Established Church. The second service, always with a sermon, is alternately in the afternoon and the evening. I therefore give two averages.

Henry Christopher Barker, Chaplain

Remarks: *The whole of the entire sittings both in the nave and in the chancel were erected at the expense of the present vicar and his friends within the last 4 years. It is almost impossible to state with any degree of accuracy what may be truly the average of the congregations for the duty required was only single each Sunday. The present vicar began about 3 years ago to have regularly service both morning and afternoon. Besides it being lambing time several persons are not able to go to a place of worship.

Remarks: From various causes the congregations on the 30 March were only about half the usual ones, both in the morning and in the evening. It may be remarked also that many attended the morning service who do not attend in the evening and vice versa. Re-distribution of the pews would be of great service in this church, many pews belong to Dissenters who let them.

Remarks: The attendance in the summer months is much better, but in the cold weather the congregation is very thin which reduces considerably the general average.

Wm. Clayton, Curate

It will be seen that there is a great want of free accomodation [sic]. In consequence only very few of the cottagers (who are the majority in this parish) are able to attend church. The few free sittings there are are inconveniently situated, and therefore seldom fully occupied. Of the families of those who occupy the large pews, a portion only attend Church at the [same] time, and this, coupled with the fact that the majority of the parishioners reside at a considerable distance from the Church, and with the lack of free accomodation, is the cause why the attendance at Church is so disproportionate to the extent of the whole population of the parish.

Remarks: The Ministers who preach in this chapel are entirely unpaid Ministers. The number of sittings returned is the number that may be accommodated cmfortably of grown persons, but when the place is crowded, as is the case occasionally, a greater number can be seated, likewise the scholars being chiefly children a given number of them take up less room than the same number of adults.

Sunday Scholars	33	31	-
Total	46	93	_

Average:

No account has been kept by which to form an accurate opinion as to the general average congregation. Nor must any opinion be formed from the numbers present on 30 March except as to the scholars whose number is much as usual.

Remarks: The condition of the church in this district is that of a new mission in a place abounding with almost all kinds of heresy, schism and irreligion. A church is much needed but the friends of the church unable to build one. There is also a National School during the week as well as on Sundays. It stands greatly in need of pecuniary support by which it might be much improved but I could not accept assistance on any terms which would take the school out of my own control.

4. BULWELL PARISH including the hamlet of Hempshill

Area: 1210 acres

Population: 1874 males, 1912 females, total 3786

(6) SAINT MARY

Consecrated November 4 1850 as a new church capable of holding 800 persons in place of an old church taken down and which did not hold more than 220 persons with only 20 free sittings.

Erected by the inhabitants of Bulwell with the aid of subscriptions from the public generally, and two grants of £400 each: one from the incorporated society for building churches and the other from a local society for the like purpose in the county of Nottingham. Total cost £2,800.

Endowed: tithe £273.10s., glebe £113.9s., other £60., fees £10.

Space: free 600, other 200, total 800

Present:	Morn	Aft	Eve
General Congregation	-	-	-
Sunday Scholars	200	200	_

Remarks: The new church of Saint Mary having been opened only for a few months and scarcely dry, and as having an insufficient warming apparatus, no estimation can be made of what will be the average number of attendants, but the best feeling towards the church is manifested, and good congregations when the church is made warm of several hundred persons may be anticipated.

Sir, From what I am able to ascertain this Chapel was built about 50 years back by two or three wealthy families in Nottingham - they have now no resident Minister. And only a few persons attend - there is a road through the Chapel into the Vestry where they meet in a room that might hold twenty to thirty persons if full - the Chapel has not been used for some years.

Yours obediently, Thomas Cave Regr. of St Mary Nottingham.

J. W. Brooks, Vicar

Hond. Sir,

I have taken the liberty of forwarding the accompanying returns of schools and places of worship under my superintendance direct to yourself, in order to prevent any improper use being made of them by the officers appointed to receive them, the majority of whom in Nottingham are Dissenters.

You will perceive that I have not filled up the return No. 7 for St. Mary's Church, simply because there is no column to show the <u>deductions</u> from the income: and as these are very considerable, to fill up the return according to the present form would convey an erroneous and injurious idea of the real value of the living.

I understand that in the case of Dissenting Chapels a return of income is not required: whereas many of them are endowed; it would likewise appear desirable to ascertain the income from pew rents, just in the one case as in the other.

I beg respectfully to suggest that were the clergy required to make these returns direct to yourself, the request would in most instances be complied with; but I have heard several express an insuperable objection to returns of income and schools expenses passing intermediately through the hands of persons who in numerous instances are hostile to the established Church.

I am Hond. Sir,
Respectfully yours
J. W. Brooks

Remarks: The parishes of Bleasby and Morton are united. The morning and afternoon services at Bleasby and Morton alternate. But when the Mg. Service is at Morton there is also Eveg. Service there. The afternoon congregations are always the best. Sunday March 30th was a fine day which accounts for the increase of General Congregation. The Sunday Scholars are very regular. The decrease is accounted for by the Hooping Cough.

W. H. Walker, Rector

Additional remarks: Although an impression seems generally to prevail that these questions ... are not asked with any friendly feeling towards the Established Church, yet a sense of the duty of obedience which I owe to my Sovereign, has compelled me to answer them all, to the best of my ability, just as if such answers could be legally enforced. At the same time, however, I protest against such questions on such subjects, and from such a quarter which are not sanctioned by the Law; and I venture humbly to express my opinion, that these questions ought never to have been asked by her Majesty's Ministers, since they exclusively appertain to her Majesty's Bishops.
